

## **CLINICAL TRIALS**

Many air fresheners are known to contain ingredients that can be harmful to humans and pets. Unfortunately, there are no regulations that compel manufacturers to disclose what chemicals are in their products.

REMBO LABS Odor Neutralizer and Eliminator has undergone four strenuous clinical studies to substantiate our claims that our product is Non-Toxic and Safe.

### **1. Study Title: Acute Inhalation Toxicity Study of REMBO LABS Odor Neutralizer and Eliminator. OPPTS 870.1300 OECD 403 Study Completion Date: June 3, 2011.**

#### **SUMMARY:**

Rembo Corp. sample identified as REMBO LABS Odor Neutralizer and Eliminator was tested for acute inhalation toxicity in accordance with OPPTS 870.1300 OECD 403 Guidelines. Rembo Corp. sample identified as REMBO LABS Odor Neutralizer and Eliminator, a clear liquid, was tested for acute inhalation toxicity at a targeted level of 2.0 mg/L of air. The actual gravimetric concentration of the study was 2.57 mg/L of air. The inhalation LC50 of Rembo Corp. sample identified as REMBO LABS Odor Neutralizer and Eliminator was found to be greater than 2.57 mg/L of air for a 4 hour period. The test material would be classified as Toxicity Category IV for inhalation toxicity, **indicating that the compound is not toxic by inhalation route of exposure.**

### **2. Study Title: Acute Oral Toxicity Study of REMBO LABS Odor Neutralizer and Eliminator. U.S. EPA Health Effects Test Guidelines, OPPTS 870.1100 OECD Guidelines for the Testing of Chemicals, Test No. 425 Study Completion Date: June 13, 2011.**

#### **SUMMARY:**

Rembo Corp., sample identified as REMBO LABS Odor Neutralizer and Eliminator was tested for acute oral toxicity in accordance with OPPTS Guidelines. Rembo Corp., sample identified as REMBO LABS Odor Neutralizer and Eliminator was administered by oral gavage at a 5,000 mg/kg body weight limit dose level, according to the Agency's Up and Down Procedure. The acute oral LD50 was determined to be greater than 5,000 mg/kg body weight. In accordance with the OPPTS Guidelines, Rembo Corp. sample identified as REMBO LABS Odor Neutralizer and Eliminator meets the requirements for EPA Category IV. **The compound is not toxic by oral ingestion.**

### **3. Study Title: Acute Eye Irritation Study of REMBO LABS Odor Neutralizer and Eliminator. OPPTS 870.2400 OECD 405 Study Completion Date: May 31, 2011**

#### **SUMMARY:**

Rembo Corp. sample identified as REMBO LABS Odor Neutralizer and Eliminator was tested for eye irritation in accordance with OPPTS OECD Guidelines. Rembo Corp. sample identified as REMBO LABS Odor Neutralizer and Eliminator was administered into one eye of each of three albino rabbits. The eyes were observed and scored at 1,24,48, and 72 hours. There were minimal eye irritation reactions in all of the test subjects and the maximum group mean score was 4.671110.0 at the 1 hour observation. In accordance with the OPPTS Guidelines, Rembo Corp. sample identified as REMBO LABS Odor Neutralizer and Eliminator would be classified as Toxicity Category IV, **indicating that the compound is not an eye irritant.**

### **4. Study Title: Clinical Safety Evaluation Repeated Insult Patch Test of REMBO LABS Odor Neutralizer and Eliminator. Study Completed: April 8, 2011**

#### **SUMMARY:**

Under the conditions of a repeated insult (semi-occlusive) patch test procedure conducted in

51 subjects, REMBO LABS Odor Neutralizer and Eliminator was "Dermatologist-Tested" and was **not associated with skin irritation or allergic contact dermatitis in human subjects.**
